

Pag mag open Ng account, ask user old client or new

Pag new client, create Ka Ng client. (It must contain necessary info)

Then add Ka Ng account (fields are account#, client ID, and balance)

Primary key is account number. Foreign key is the CLIENT ID, default balance is 0)

The relationship of table is: 1 client have 1 or more accounts)
1 is to many

May or may not deposit agad pag nag open Ng account.

Hindi pwede mag close Ng account if may balance pa.

Delete ang client pag wala Ng account
